METALEX VENTURES LTD.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited – Prepared by Management)
JANUARY 31, 2009

1. NATURE AND CONTINUANCE OF OPERATIONS

The Company's principal business activity is the acquisition and exploration of mineral properties. To date, the Company has not generated significant revenues from operations and is considered to be in the exploration stage.

The Company has not yet determined whether its mineral properties contain ore reserves that are economically recoverable. The recoverability of the amounts shown for mineral properties, including acquisition costs and related exploration costs, are dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain necessary financing to complete the development of those reserves and upon future profitable production.

These financial statements have been prepared in accordance with Canadian generally accepted accounting principles with the assumption that the Company will be able to realize its assets and discharge its liabilities in the normal course of business rather than through a process of forced liquidation. Continued operations of the Company are dependent on its ability to develop its mineral properties, receive continued financial support, complete equity financings, or generate profitable operations in the future. The financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue in existence.

2. BASIS OF PRESENTATION

The interim period financial statements of Metalex Ventures Ltd., (the “Company” or “Metalex”), have been prepared by the Company in accordance with Canadian generally accepted accounting principles. All financial summaries included are presented on a comparative and consistent basis showing the figures for the corresponding period in the preceding year. The preparation of financial data is based on accounting principles and practices consistent with those used in the preparation of annual financial statements. Certain information and footnote disclosure normally included in financial statements prepared in accordance with Canadian generally accepted accounting principles has been condensed or omitted. These interim period statements should be read together with the audited financial statements and the accompanying notes included in the Company's latest annual filing. In the opinion of the Company, its unaudited interim financial statements contain all adjustments necessary in order to present a fair statement of the results of the interim periods presented.

Effective May 1, 2008, the Company adopted the following new standards issued by the Canadian Institute of Chartered Accountants (“CICA”). These policy changes were adopted on a prospective basis with no restatement of prior period financial statements. The new standards and accounting policy changes are as follows:

Assessing Going Concern

The Canadian Accounting Standards Board (“AcSB”) amended CICA Handbook Section 1400, to include requirements for management to assess and disclose an entity’s ability to continue as a going concern.

METALEX VENTURES LTD.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited – Prepared by Management)
JANUARY 31, 2009

2. BASIS OF PRESENTATION (cont'd...)

Financial Instruments

The AcSB issued CICA Handbook Section 3862, Financial Instruments – Disclosures, which requires entities to provide disclosures in their financial statements that enable users to evaluate (a) the significance of financial instruments for the entity's financial position and performance; and (b) the nature and extent of risks arising from financial instruments to which the entity is exposed during the period and at the balance sheet date, and how the entity manages those risks. The principles in this section complement the principles for recognizing, measuring and presenting financial assets and financial liabilities in Section 3855, Financial Instruments – Recognition and Measurement, Section 3863, Financial Instruments – Presentation, and Section 3865, Hedges (see Note 8).

The AcSB issued CICA Handbook Section 3863, Financial Instruments – Presentation, which is to enhance financial statement users' understanding of the significance of financial instruments to an entity's financial position, performance and cash flows. This section establishes standards for presentation of financial instruments and non-financial derivatives. It deals with the classification of financial instruments, from the perspective of the issuer, between liabilities and equity, the classification of related interest, dividends, losses and gains, and the circumstances in which financial assets and financial liabilities are offset.

Capital Disclosures

The AcSB issued CICA Handbook Section 1535, which establishes standards for disclosing information about an entity's capital and how it is managed (see Note 7).

International Financial Reporting Standards (“IFRS”)

In 2006, the AcSB published a new strategic plan that will significantly affect financial reporting requirements for Canadian companies. The AcSB strategic plan outlines the convergence of Canadian GAAP with IFRS over an expected five year transitional period. In February 2008 the AcSB announced that 2011 is the changeover date for publicly-listed companies to use IFRS, replacing Canada's own GAAP. The date is for interim and annual financial statements relating to fiscal years beginning on or after January 1, 2011. The transition date of January 1, 2011 will require the restatement for comparative purposes of amounts reported by the Company for the year ending April 30, 2011. While the Company has begun assessing the adoption of IFRS for 2011, the financial reporting impact of the transition to IFRS cannot be reasonably estimated at this time.

Title to mineral properties involves certain inherent risks due to the difficulties of determining the validity of certain claims as well as the potential for problems arising from the frequently ambiguous conveyancing history characteristic of many mineral properties. The Company has investigated title to all of its mineral properties and, to the best of its knowledge, title to all of its properties is in good standing.

METALEX VENTURES LTD.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited – Prepared by Management)
JANUARY 31, 2009

3. MINERAL PROPERTIES (cont'd...)

In addition to the properties referred to in the table above, the Company is pursuing the acquisition of certain claims in Brazil.

The Company has entered into an agreement with Kel-Ex Development Ltd (“Kel-Ex”) to acquire certain mineral claims in Brazil in consideration for the issuance of 10,000,000 common shares of the Company. The mineral claims are subject to a 10% Net Profits Interest (“NPI”) retained by Kel-Ex and two 5% NPI’s held by two individuals. The Company has also entered into agreements with each of the two individuals to acquire their 5% NPI’s in consideration for the issuance of 500,000 common shares of the Company to each individual.

All three of the above-noted agreements are conditional upon the Company entering into an agreement with a third party under which the third party would have an option to acquire an interest in these claims by incurring certain exploration expenditures. The Company is currently finalizing an agreement with a third party under which the third party is required to pay a \$250,000 deposit (received).

4. EQUIPMENT

		January 31, 2009			April 30, 2008
	Expected useful life	Cost	Accumulated Amortization	Net Book Value	Net Book Value

METALEX VENTURES LTD.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited – Prepared by Management)
JANUARY 31, 2009

5. CAPITAL STOCK AND CONTRIBUTED SURPLUS (cont'd...)

The Company has entered into conditional agreements that, if finalized, will result in the issuance of an additional 11,000,000 common shares (see Note 3).

Deferred share unit plan

The Company has a deferred share unit plan whereby directors can receive compensation in the form of a deferred share unit. Upon termination from the Board, the directors, at their discretion, can elect to receive either cash or shares for the deferred compensation. As of January 31, 2009, \$184,167 (April 30, 2008 – \$180,250) of deferred compensation has been accrued which equates to 1,018,932 shares (April 30, 2008 – 432,133) at a weighted average price of \$0.18 per share (April 30, 2008 – \$0.42 per share). During the current period, 400,505 common shares, with a weighted average price of \$0.15 per share, were issued to a former director representing accrued compensation of \$61,375.

Stock-based compensation

During the nine month period ended January 31, 2009, the Company recognized stock-based compensation of \$114,932 (2008 - \$59,785) in the statement of operations as a result of the granting and vesting of incentive stock options. The weighted average fair value of options granted was \$0.02 per option (2008 - \$0.25) using the Black-Scholes option pricing model with an expected volatility of 94%, a risk free interest rate of 2.69%, an expected life of 3 years and an expected dividend yield of 0%.

Stock options and warrants

The Company has a stock option plan in place under which it is authorized to grant options to executive officers and directors, employees and consultants enabling them to acquire up to 10% of the issued and outstanding common stock of the Company. Under the plan, the exercise price of each option may not be less than the market price of the Company's stock as calculated on the date of grant. The options can be granted for a maximum term of 5 years with vesting provisions determined by the Board of Directors.

Stock option and share purchase warrant transactions are summarized as follows:

	Stock Options		Warrants	
	Number	Weighted Average Exercise Price	Number	Weighted Average Exercise Price
Outstanding, April 30, 2008	5,150,000	\$ 0.66	10,127,000	\$ 0.71
Granted	5,238,000	0.11	-	-
Exercised	-	-	-	-
Expired/cancelled	<u>(3,820,000)</u>	0.65	<u>-</u>	-
Outstanding, January 31, 2009	6,568,000	\$ 0.22	10,127,000	\$ 0.71
Number currently exercisable	6,568,000	\$ 0.22	10,127,000	\$ 0.71

In November 2008, the Company granted an aggregate of 5,088,000 options to certain officers, directors, employees and consultants. Each of these options vested immediately and allow the holder to purchase one common share in the Company at a price of \$0.10 until November 13, 2013. As a condition of these new grants, an aggregate of 3,820,000 options, originally granted to those certain officers, directors, employees and consultants with a weighted average exercise price of \$0.65, were cancelled.

6. RELATED PARTY TRANSACTIONS (cont'd...)

Included in receivables is \$63,153 (April 30, 2008 - \$327) for shared equipment and camp supplies costs and \$39,589 (April 30, 2008 - \$14,269) for shared office and administrative costs due from a company controlled by a director and a company with common directors and management.

These transactions were in the normal course of operations and measured at the exchange value which represented the amount of consideration established and agreed to by the related parties.

Leases payable to related party

Effective November 2006, the Company completed a sale-leaseback transaction with a company controlled by a director involving field equipment with an original cost of \$448,604 and net book value of \$371,816. The field equipment was sold for proceeds of \$448,604 and then leased back under a capital lease obligation of \$448,604. The lease obligation is non-interest bearing and for a term of 30 months.

Future minimum lease payments under the capital lease are as follows:

	January 31, 2009	April 30, 2008
Total minimum lease payments	\$ 448,604	\$ 448,604
Less: payments made	(411,220)	(299,069)
Balance of obligation	37,384	149,535
Less: current portion	(37,384)	(149,535)
Non-current portion	\$ -	\$ -

Effective February 2008, the Company entered into another capital lease with a company controlled by a director involving field equipment with a cost of \$508,492. The lease obligation carries an imputed interest rate of 5% and a term of 24 months.

Future minimum lease payments under the capital lease are as follows:

	January 31, 2009	April 30, 2008
Total minimum lease payments	\$ 533,917	\$ 533,917
Less: imputed interest	(25,425)	(25,425)
Less: payments made	(254,246)	(63,561)
Balance of obligation	254,246	444,931
Less: current portion	(254,246)	(254,246)
Non-current portion	\$ -	\$ 190,685

7. CAPITAL RISK MANAGEMENT

The Company includes cash and cash equivalents and equity, comprised of issued common shares, contributed surplus and deficit, in the definition of capital.

The Company's objectives when managing capital is to maintain its ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders.

The Company expects its current capital resources will not be sufficient to complete its exploration and development plans and operations through its current operating period and will be required to raise additional funds through future equity issuances or secure other financing. Recently, the Company has relied on extended credit terms and/or advances from related parties to fund its operations and expects continued financial support through the current fiscal year. The Company is currently not subject to externally imposed capital requirements. The Company does not pay out dividends. The Company's investment policy is to invest its short-term excess cash in secure deposits in large Canadian financial institutions.

The Company's primary objective with respect to capital management is to ensure adequate liquid capital resources are in place to fund the exploration and development of its mineral properties while maintaining its ongoing operations. To secure the additional capital to pursue these plans, the Company may attempt to raise additional funds through the issuance of debt and or equity.

8. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

The Company's financial instruments consist of cash, receivables, accounts payable and accrued liabilities, and capital lease obligations due to related party. Unless otherwise noted, it is management's opinion that the Company is not exposed to significant interest or credit risks arising from these financial instruments. The fair value of these financial instruments approximates their carrying values, unless otherwise noted.

The Company is exposed to a variety of financial risks by virtue of its activities including currency, credit, interest rate, liquidity and commodity price risk.

a) Currency risk

While the Company's capital is raised in Canadian dollars, the Company is conducting business in Angola, Mali and Greenland whose currencies are the Rand, the Franc and the Krone. As such, the Company is subject to risk due to fluctuations in the exchange rates for those currencies as well as the United States and Canadian dollar. The Company does not use derivative financial instruments to reduce its exposure to foreign currency risk.

b) Credit risk

Credit risk is the risk of a financial loss to the Company if a counterparty to a financial instrument fails to meet its contractual obligations.

The Company's cash and cash equivalents are in large Canadian financial institutions and it does not have any asset-backed commercial paper. The Company's receivables consist mainly of mineral property recoveries due from joint venture partners and GST receivable due from the Federal Government of Canada. The Company is subject to the risk that its joint venture partners will default on amounts owing for their portion of exploration expenditures.

8. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (cont'd...)

c) Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. There is a very limited interest rate risk as the Company holds no interest bearing financial obligations or assets.

d) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its obligations as they become due. The Company manages its liquidity risk through the management of its capital structure and financial leverage as outlined in Note 7.

e) Price risk

The ability of the Company to explore its mineral properties and the future profitability of the Company are directly related to the market price of diamonds and other minerals. The Company's input costs are also affected by the price of fuel. Management monitors diamond, precious metal and fuel prices to determine the appropriate course of action to be taken by the Company.

9. SEGMENTED INFORMATION

The Company's one reportable operating segment is the acquisition and exploration of mineral properties. Geographic information is as follows:

	January 31, 2009	April 30, 2008
Mineral properties and equipment:		
Canada	\$ 36,022,913	\$ 34,283,199
Angola	10,702,242	7,911,389
Greenland	3,230,161	3,225,582
Mali	91,979	82,540
	\$ 50,047,295	\$ 45,502,710

10. SUPPLEMENTAL DISCLOSURE WITH RESPECT TO CASH FLOWS

Significant non-cash transactions for the nine month period ended January 31, 2009 included:

- a) Incurring mineral property expenditures of \$283,671 with respect to amortization of field equipment.
- b) Recognizing mineral property recoveries of \$2,309,976 through receivables.
- c) Incurring mineral property expenditures of \$3,995,128 through accounts payable and accrued liabilities and \$1,085,436 paid by exploration joint venture partners and applied against related receivables.
- d) Issuing 400,505 common shares with a value of \$61,375 to a former director in settlement of deferred share compensation pursuant to the deferred share unit plan (Note 5).
